

Drop tickets faster with eSignature

Great News! We are pleased to announce that eSignature is now available on our AG Quick Ticket® platform for the following American General Life Insurance Company (AGL) products: AG Select-a-Term® and AG ROP Select-a-Term® – and coming soon, Secure Lifetime GUL 3. Using eSignature greatly improves the speed at which policies are issued and makes it easier than ever for your clients to complete the application process.

How it works

If all signers would like to electronically sign, this can now be indicated on the ticket along with necessary email addresses for all signers. Email addresses are collected on the “Insured” screen and the “Owner” screen.

If you are unsure of the client’s desire at the time of initial contact, the Insured can also inform the order fulfillment vendor during the tele-interview if they would like to electronically sign. The Insured should provide to the vendor the necessary email addresses for all signers. **Important:** Please encourage clients to determine their preferred signature method prior to the paramed exam.

An email will be sent to all signers asking them to launch a link and electronically sign all required documents. ExamOne will follow up with the signers for five days, after which time the link will expire. ExamOne will then proceed with a wet signature by sending the application packet to the signers.

Faster, easier

Using eSignature dramatically improves speed-to-issue, helping your clients get their coverage in force more quickly and easily.

NOTE: While Signature is not currently available for US Life sales, we expect to have it available on the NY version of AG Select-a-Term early this year.
