For policies that are Modified Endowment Contracts (MECs), distributions (including loans) are taxable to the extent of income in the policy; an additional 10% federal income-tax penalty may apply. Your clients should consult their tax advisor for advice about their own situations.

STRATEGY	SUMMARY	POLICIES COMMONLY USED
ACTIVATE YOUR ASSETS	Involves the idea of repositioning certificates of deposit. Such monies could be repositioned to life insurance to create, enhance, or leave a legacy.	<ul style="list-style-type: none"> • Founders Plus • VUL Protector • SIUL
ASSET PROTECTION+	Involves the idea of repositioning assets which may be tax inefficient from a wealth transfer perspective (e.g., IRAs and annuities). IRAs and annuities are subject to income taxes at death, which may make them inefficient from a wealth transfer perspective. Such assets (after taxes and/or surrender charges) or a portion of the income from such assets may be repositioned to life insurance to create, enhance, or leave a legacy.	<ul style="list-style-type: none"> • UL Protector • Founders Plus • VUL Protector • SUL Protector • SIUL
BRINGING STOCK TO LIFE	Involves the idea of repositioning a portion of a concentrated stock portfolio. This concept does not discuss any particular stock or security. Rather, it focuses conceptually on repositioning a portion of monies generated by diversification strategies to a life insurance policy to reduce the amount of market volatility for assets earmarked for a client's legacy planning.	<ul style="list-style-type: none"> • UL Protector • Founders Plus • VUL Protector • SUL Protector • SIUL
CHARITABLE PLANNING	In the asset repositioning/leveraging context, charitable planning typically involves using life insurance in a variety of ways primarily to enhance or leverage the amount of money ultimately passing to charity. Where traditional measures of economic loss may not be present in the facts and where the case may not fit Prudential's traditional underwriting guidelines, the charitable planning case may be considered a leveraged gifting type of case and may be considered under the asset repositioning/leveraging underwriting guidelines. Therefore, it is included in this list of concepts.	<ul style="list-style-type: none"> • UL Protector • SUL Protector • SIUL
COMPLETE THE DREAM	Involves the idea of repositioning a portion of assets (after taxes and/or surrender charges) with the goal of reducing the amount of market volatility for assets earmarked for a client's legacy planning.	<ul style="list-style-type: none"> • UL Protector

If the asset or income being repositioned becomes fully exhausted, premiums may have to be paid using other assets or income to keep the life insurance policy in force.

¹ There are no extended or exception issue ages.

² Product and rate availability can vary by state. Minimum age may vary by face amount.

³ All benefits, riders, and product features may not be available in all states. Additional limitations may apply based on age and underwriting. Some riders are available at an additional cost.

⁴ The *Living Needs Benefit* is an accelerated death benefit and is not a health, nursing home, or long-term care insurance benefit and is not designed to eliminate the need for insurance of these types. There is no charge for this rider but, when a claim is paid under this rider, the death benefit is reduced for early payment, and a \$150 (\$100 in Florida) processing fee is deducted. If more than one policy is used for the claim, each policy will have a processing fee of up to \$150 deducted (\$100 in Florida). Portions of the *Living Needs Benefit* payment may be taxable, and receiving an accelerated death benefit may affect your client's eligibility for public assistance programs. The federal income-tax treatment of payments made under this rider depends upon whether the insured is the recipient of the benefit and is considered "terminally ill" or "chronically ill." We suggest that your clients seek assistance from a personal tax advisor regarding the implications of receiving *Living Needs Benefit* payments. This rider is not available in Minnesota to new purchasers over age 65 until the policy has been in force for one year, and the nursing home option is not available in Connecticut, Florida, Massachusetts, New York, or the District of Columbia. **This rider is not available in Washington state.** In Oregon, term policies must include the waiver of premium benefit to be eligible for this rider.

⁵ Consideration will be given for face amounts as low as \$200,000. You should submit an inquiry to Underwriting before submitting an insurance request on an individual over age 80 for guidance on whether the risk may be considered. If the case can be submitted, requests between \$200,000 and \$249,999 must be submitted using the paper application.

⁶ PruLife Universal Plus, PruLife Founders Plus UL and PruLife Custom Premier II policies using Death Benefit C require a minimum face amount of \$250,000.

⁷ The The BenefitAccess Rider is an optional rider for chronic or terminal illness that accelerates the life insurance death benefit. It is not Long-Term Care (LTC) insurance. Benefits received under the rider will reduce and may deplete the death benefit. Electing the BenefitAccess Rider results in an additional charge and underwriting requirements. Some benefit payments may be subject to a fee. Other terms and conditions apply. Clients should consult their tax and legal advisors.

For New York contracts. Please also note the rider is not subject to the minimum requirements of New York Law, does not qualify for the New York State Long-Term Partnership Program and is not a Medicare supplement policy. In addition, receiving accelerated death benefits may affect clients' eligibility for public assistance programs and such benefits may be taxable.

⁸ The Overloan Protection Rider is available only on policies with GPT.

Money that is placed in the Indexed Account or Plus Account is not a direct investment in the S&P 500[®] Index. If amounts in the Indexed Account of Advantage UL and Survivorship Index UL are withdrawn prior to the end of the one-year term, no interest will be credited.

¹¹ The Index Growth Cap is generally stated as a percentage, which is the maximum rate of interest that will be credited at the end of the one-year Index Segment Duration, regardless of changes to the designated index. The Index Growth Cap is declared for each Index Segment in advance of each Segment Start Date. The Index Growth Cap is subject to change at our discretion, both up and down, but is guaranteed to never be less than 3.00%.
